*“Conceived in 1998 at Stanford University by film critic and educator Jasmina Bojic in conjunction with the fiftieth anniversary of the signing of the Universal Declaration of Human Rights, the United Nations Association Film Festival (UNAFF) screens documentaries by international filmmakers dealing with topics such as human rights, environmental themes, women’s issues, children, refugee protection, homelessness, racism, disease control, universal education, war and peace. By bringing together filmmakers, the academic community and the general public, UNAFF offers a unique*

*opportunity for creative exchange and education among groups and individuals often separated by geography, ethnicity and economic constraints. For more details please visit [www.unaff.org](http://www.unaff.org)”*
